Welcome To Coral Classics

A unique collection of Coral Stones and Shell Stones from around the world

2015 - 2016 product catalogue
Calypso Coral contains many types of brain and fan coral, giving each tile a unique look and feel. Having a very high density, Calypso Coral passes freeze thaw testing, making it suitable for use in any climate.

- Being a true coral stone it does not retain heat, making it cool to the touch regardless of the sun exposure it endures.
- It is naturally non-slip for exteriors applications in a saw cut unfilled finish.
- Is easily maintained after it is properly sealed.
- For this reasons it has become a very popular material for exterior applications such as pool decks, walkways, balconies and cladding.

Calypso Coral Available Sizes

- **Tiles & Pavers:** Available in sizes ranging from 4”x4” up to 60”x72”

Atlantic Shell Stone is light tan to beige in color. It is filled with small sea shells very closely embedded in this fossilized stone.

Being a true shell stone, it does not retain heat, making it cool to the touch regardless of the sun exposure it endures.

It is perfect for interior to exterior installations due to the 3 different finishes that are available.

Is easily maintained after it is properly sealed.

This limestone appears to be off white, in the sunlight it appears bright white. A phenomenon that gives the city in which it is quarried the name of “The White City.”

Atlantic Shell Stone Available Sizes

- **Tiles & Pavers**: Available in sizes ranging from 4”x4” up to 55”x80”
- **Mosaics**: 1”x1”, 1”x2”, 2”x2” & Patterns
