

## BALI GREEN

Bali Green is suitable for all types of underwater applications such as swimming pools walls and floors, waterline, water features and ponds. It is suitable for both saltwater and standard chlorine pool systems.

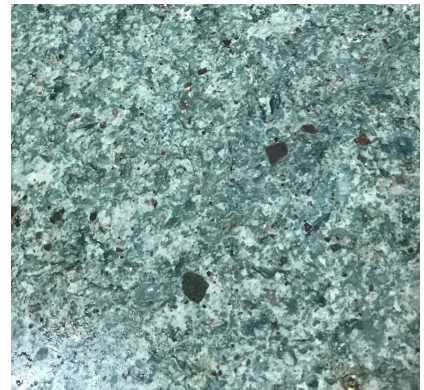

Quarried and produced in Indonesia, this material is cut and produced by hand by local artisans

# SIZES & FINISHES

4"x4"x3/8"

Rustic & Honed Finish

6"x6"x3/8"

Rustic & Honed Finish

▶ A very popular product all over Europe, Hawaii, Phuket and the Maldives to name a few, it is now making its way to the USA. Bali Green is sought after for its unique color changing characteristics and ability to not breakdown over time due to water submersion.

## ▶ BALI GREEN SEALING

Coral Classics by A&P recommends Dry Treat, Stain Proof or 40 SK, if sealing is required or wanted. (Refer to sealer page)
