

## CLASSIC PREMIUM KEYSTONE

Classic Premium Keystone by Coral Classics

Classic Premium Keystone is loaded with brain and fan coral fossilizations that are hundreds of thousands of years old.

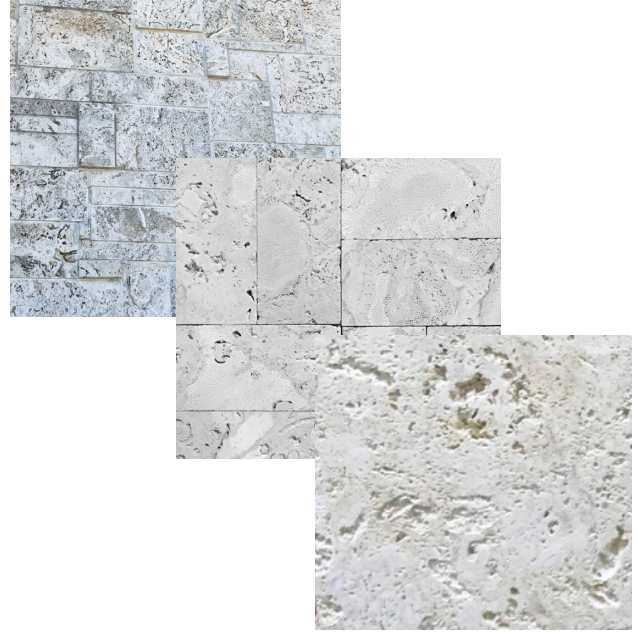

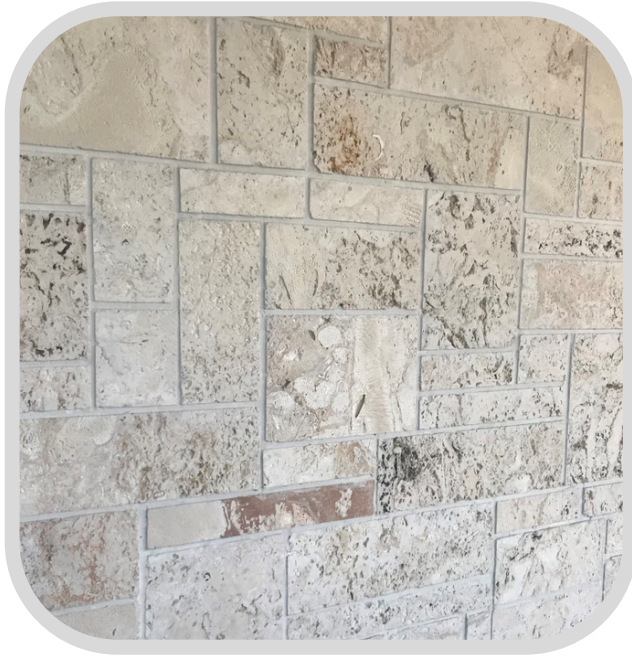

It is very white and consistent in color from piece to piece and shade and tone. There are holes throughout this stone which brings an old-world charm and castle like characteristics to every application it is used in.

Being a true coral stone, it does not retain heat regardless of the sun exposure it endures and in its natural saw cut unfilled finish, is non slip when wet. If left unsealed after installation in an exterior environment, this material will "patina" over time and achieve the "Old Florida Castle Look".

# TILE FORMAT

Classic Premium Keystone by Coral Classics

## TILE SIZES

12"x12"x2"  
12"x24"x2"  
16"x16"x2  
16"x24"x2"  
18"x18"x1/2"

## SEALING

Classic Premium Keystone is a porous stone that can be sealed with a high-quality penetrating stone or marble sealer to close its pores and keep it manageable from staining or attracting mold or mildew. (Refer to Sealer Page)
