

CORAL REEF WHITE

Coral Reef White by Coral Classics

Coral Reef White is a very dense material, making it an ideal choice for interior or exterior applications. Being a shell stone, it is cool to the touch regardless of the sun exposure it endures.

The density of this product and the few holes if any, allows it to stay clean and not attract mold or mildew in exterior applications once sealed properly. Each installation is unique to itself, and subtly brings the beauty and warmth of an off-white shade to the project.

► Suitable for residential and commercial applications, this has become a fan favorite for countless installations around the United States.

SIZE FORMATS

TILE SIZES

12"x24"x3/4"
18"x18"x3/4"
18"x36"x3/4"
24"x24"x3/4"

ARCHITECTURAL PRODUCTS

Coral Reef White by Coral Classics

Coral Reef White can be fabricated into fireplaces columns, window and door surrounds, 3D designs, convex and concave pieces, and more.

SEALING

Coral Reef White being a dense stone can remain clean and not attract mold/mildew in exterior applications once it has been sealed. Coral Classics by A&P, recommends "Premium Impregnating Sealer by Dry Treat" for all flooring, interior or exterior and "40SK Consolidator & Water Repellent by Dry Treat" for cladding applications.
